

DAVINES AUTUMN COLOR PLACEMENT

Learn the technical part of Davines color products and gain scientific knowledge from the davines R&D department that helps you understand the technology behind color and strengthen you as a colorist.

This class will guide you to choose the right color formulas, inspire and create interesting new shades, or perfecting your choice of mixing for the clients in the salon.

In this class we inspire with 3 color techniques on mannequin heads with a hands on work shop, to practice one of the techniques.
